

HP Pavilion dv1000 Keyboard Replacement

This is a simple and easy to follow guide to replacing or removing the keyboard from the HP Pavilion dv1000 laptop.

Written By: Tyler Latour

INTRODUCTION

This guide will take you through the process of replacing a keyboard for a HP Pavilion dv1000.

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
 - [Spudger](#) (1)
-

Step 1 — Battery

- Shut down the computer.
- Disconnect all external devices and cables from the computer.

Step 2

- Flip the laptop over.

Step 3

- Locate the gray sliding tab next to the black bar where the battery is located.
- Slide the gray sliding tab to the left until you hear a distinct click.
- The inside edge of the battery should pop up.

Step 4

- Grasp the inside edge of the battery.
- Lift the inside edge of the battery up to detach the battery from the laptop.

Step 5 — Keyboard

- Remove the highlighted screws.
- After removing the screws, flip the laptop over.

Step 6

- Open the laptop.
- Use the spudger to lift the keyboard.
- ⚠ Do not pull the keyboard up and away from the computer, because it is still attached by a ribbon cable.
- Press the two white clips forward with your fingers and gently pull the ribbon from the clips.

To reassemble your device, follow these instructions in reverse order.
